

Providing customized solutions with telescopic slides

Stock Item Program

Quality

Our technical knowledge combined with the use of high quality materials and an extensive quality control program allow us to develop high standard products.

...we can also offer you an uniquely custom made slide to meet your specific needs.

Experience

We have continuously improved and developed ourselves during the past 175 years. This makes us the company with a vast experience in slide technology.

Flexibility

We smoothly adapt to changing market trends and customer demands by rapid design changes and fast delivery. This makes us an ideal partner for developing new products and exploring new markets.

Global supplier

We are an international company supplying our products to customers worldwide. No matter where you are located, we can guarantee a swift and accurate delivery.

Professional

Our 175 years of experience have given us the professional expertise needed to design, engineer and produce exactly what you are looking for.

Service

We pride ourselves in maintaining a high service level while achieving a short time to market.

Solution

Our strength is to offer tailor made solutions to all the challenges presented by our customers.

With this leaflet we present our wide range of standard products and stock items. Of course...

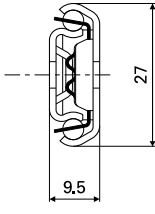

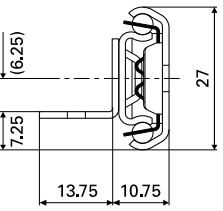

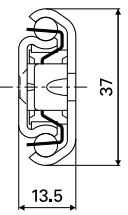

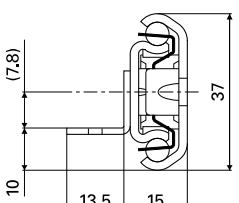

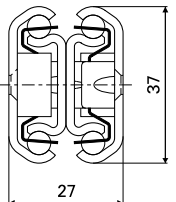

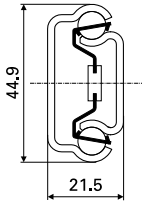

Innovation

By listening to our customers, we identify current and future needs. Our highly qualified R&D department turns these market demands into innovative products.

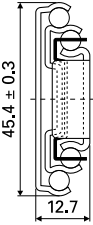

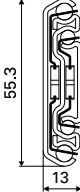

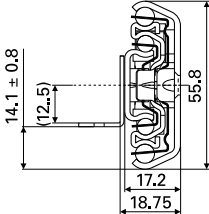

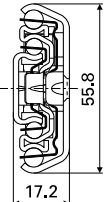

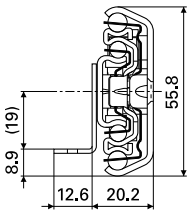

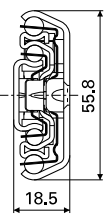

Customization

Our highly qualified staff is experienced in handling customer specific needs for products, logistics, packaging and labeling. We prefer to join our customers in the design phase of their projects to co-design the best solution together.

45535116	Spacer bracket 29,5

* Other measurements and combinations with rack & pinion/ISL are possible on request.

Kubitheek (1 x A4)

Description: The file frame dimensions are based on 1 x A4 suspension files. Dimensions of the Kubitheek are 345 x 320 x 273 mm (width x depth x height).

Load capacity:	40 kg
Article number:	49106513
Packaging:	Per piece in a cardboard box
Features:	<ul style="list-style-type: none"> • Colour black Ral 9017 • Colour file stand Pre-galvanised • Different colours on request

However we have a lot more to offer, so...

If you need a:

- special length.....2 m?
- special extension.....150%?
- special load capacity.....250 kg?
- another feature...
- another fixation...
- or another material...

Please contact us or visit our website to see our total program.

Thomas Regout International B.V. is...

...founded in 1834 and located in Maastricht in the Netherlands. We are an experienced and innovative partner for telescopic slides applications in a whole range of different markets worldwide. A well-known company that provides customers with professional and customized solutions, but can also supply from a wide range of stock items. Co-design, innovation, time to market, service, and maintaining high quality are our priorities.

Please contact us for more information or visit our website to see our products and their possibilities.
